

## Still a Little Bit of Love

Dan Seals

When I saw you there at the party tonight  
With a smile so pretty and your eyes so bright  
I wondered why if you ever said goodbye  
Was it the hand of faith was it just bad luck  
Maybe we didn't try enough at it all these time  
I still don't know why

'Cause there's still a little bit of love  
Still a little bit of love  
Still a little bit of love come shinning through  
'Cause there's still a little bit of love  
Still a little bit of love  
Is there still a little bit of love in me and you

Now the years have passed and a change has come  
We thought those two young lovers were done  
But it seems some dream won't fade away with time  
And a taste of love is a dangerous thing  
And is sweet beyond imagining  
And I've never found, never found a love like yours and mine

And it seems it all the changes of our lives  
The promise to this moment to get them here tonight
