

## Care

## Dance Gavin Dance

For now we'll lay by the ocean  
For now no one is around  
For now we'll act like we're still young  
For now we'll never come down

I know you're not empty  
I know you're still there  
I know you're not empty  
I know

You still care  
I remember you back in the day  
Care  
Prodigy show 2003  
Care  
We were camping out in Jnco jeans  
Care  
The ecstasy was super clean

Higher than all of their voices  
Higher than fading away  
Got lost, lost in the moment  
Got lost in tempting our fate

I know you're not empty  
I know you're still there  
I know you're not empty  
I know

You still care  
I remember you back in the day  
Care  
Prodigy show 2003  
Care  
We were giving out in JNCO jeans  
Care  
The ecstasy was super clean

And you can rub it in my face  
Sabotage all my connections  
The parasites won't go away  
They live inside you  
Got nothing clean for you to taint  
Already gave you a confession  
Propagating every consequence  
'Till hate consumes you

I know you're not empty  
I know you're still there  
I know you're not empty  
I know you still care

I never wanted to be caught up in not looking back  
I never wanted to be treated like a psycho  
I never wanted to be singing about you again  
But you keep locked in your possession over my soul

God damn, you caught me looking back  
God damn, with no discretion  
God damn, you got me going mad  
God damn, it's an obsession

I never wanted to be caught in not looking back  
I never wanted to be treated like a psycho  
I never wanted to be singing about you again  
I couldn't face another second of your vacant threats  
I couldn't shuffle through the pieces of my costume  
I never wanted to be singing about you again

God damn, you caught me looking back  
God damn, with no discretion  
God damn, you got me going mad  
God damn, it's an obsession
