

One in a Million

Dance Gavin Dance

If you'd just wait for it
To return to where it came from
Just wait for it
You'd be young again

Heal my demons
Make it dirty on principle
Kill my prison, oh
Oh-oh
Tip my demons
But I know they're unquenchable
Kill my prison, oh-oh
Oh-oh

Now do what's suggested
Become a bad father
Act famous, ask some woman to prepare you food
But you can't even use a computer
Talk like you invented dirt
Then predict the future

Heal my soul cuz I'm one in a million
Be underwater 'til the end of time
I'll need a miracle to change my mind
I'm underwater drowning 'til you
Heal my soul cuz I'm one in a million

Get straight, dominate
Dictate faith, don't tolerate
You gotta concentrate, conglomerate
Hallelujah

If you'd just wait for it
To return to where it came from
Just wait for it
You'd be young again

Heal my demons
Make it dirty on principle
Kill my prison, oh
Oh-oh
Tip my demons
But I know they're unquenchable
Kill my prison, oh-oh
Oh-oh

Lookin' through the lens with that malfunction
Night time seems so far away
Globes are spinning half as round
The feeling that we found was contagious

Heal my soul cuz I'm one in a million
Be underwater til the end of time
I'll need a miracle to change my mind
I'm underwater drowning til you
Heal my soul cuz I'm one in a million

Get straight, dominate
Dictate faith, don't tolerate
You gotta concentrate, conglomerate
Hallelujah

Get straight, dominate
Dictate faith, don't tolerate
You gotta concentrate, conglomerate
Hallelujah

All my anxious fear
It's not that I'm gone
I was never here
All my anxious fear
I was never even here
(Heal my soul cuz I'm one in a million)
