

## Walk This Way

Daniel Ash

She can dance  
When she walks down the street  
Seems to float through the air  
Like in a real good dream  
Dark brown skin  
This angel blues just under six  
Feet tall now  
And never sings the blues  
Got to go, got to get away  
Got to go, go, go, go, go  
Before it's too late  
Walked into my life  
Around quarter to three  
She ain't no angel you know  
And it's getting to me  
With a dirty little smile  
And these eyes of blue  
I'm telling you honey  
This ain't no good for you  
Got to go, got to get away  
Got to go, go, go, go, go  
Before it's too late  
Now it's a quarter to six  
And the sun begins to shine  
You just woke yourself up  
You start work at nine  
You told yourself before a million times  
This ain't no good for you  
Got to go, got to get away  
Got to go, go, go, go, go  
Before it's too late  
She said, walk this way, etc
