

Kool-Aid

Daniel Johnston

I'm drinking my life away even though it's only Kool
Aid

I'm drinking my life away

Flash lightning past my window
Two note Frankenstein I don't care you don't scare me
Flash lightning past my window
Two note Frankenstein I don't care you don't scare me

Dance on my grave
Dance on my grave
Dance on my grave
Dance on my grave

Get yourself together or fall apart
Make your mind up or let yourself down
Get yourself together or fall apart
Make your mind up or let yourself down

Hey, hey, hey hey,

After my first thousand years in Hell
I was burning couldn't stand the smell
After my second thousand years in hell
I'm feeling sorry for myself
Funeral Home
Funeral Home
I'm going to the funeral home
Buy me a coffin shiny and black
I'm going to the funeral and I'm never coming back

Adolph Hitler was a man, he was a big man
But God was bigger and Japan and Germany surrendered at
the war
