

## Since I Lost My Tooth

Daniel Johnston

I've been up and I been down  
When I been between I just been hangin' around  
Things are quite different  
And life ain't the same  
Since I lost my tooth

Now the women they treat me rude  
Not that they ever really treated me that good  
I'm a minority and now I know  
What it's like and how it feels to be a negro  
Doo doo doo doo

It's gettin' down to the nitty gritty  
If you can't smile nice and you can't smile pretty  
They don't wantcha around they say you look sloppy  
When you eat

Well

I've been up and I been down  
When I been between I just been hangin' around  
Things are quite different  
And life ain't the same  
Since I lost my tooth
