

# Spook

Daniel Johnston

Well, a message to all you hicks out there  
Every time you stop and stare  
At things you don't really understand  
And you think you own your own land  
You might

But there ain't nothing else nowhere  
There's never been a thing anyplace  
There isn't any face you've never seen  
There isn't any dream that you know

'Cause you don't know much  
An you never been any place much  
'Cept for your own

I'm some else from nowhere  
I come to your house to scare  
I'm gonna tell you now, right now  
You've nothing more to fear but fear

Love is alive  
Love ain't no jive  
God is alive  
Love ain't no jive  
No jive

So you better listen up in here  
You better think about your darling dear  
You better think about the good  
And you better do right  
Or I'll fight cha all night  
I'm a spook that cha don't really like
