

# Baby Blues

Daniel Lavoie

I've got a craving to tell someone I love her,  
But I'm a solitary man  
Well my heart says go but my reason says no, it's just a hopele  
ss enterprise  
Still I love to dream I lose myself in those baby blues, baby b  
lues  
Just wanna drown in those baby blues

Used to believe it could last forever,  
Still kind of believe it can last for a while  
But the world moves fast and our hearts move fast and we're alw  
ays set to go  
Still I love to dream I lose myself in those baby blues, baby b  
lues  
Just wanna drown in those baby blues

I want to let go but inside I know what I'm headed for and thou  
gh I don't care  
There's a lump in my throat telling me beware, don't believe yo  
ur lies  
I want to lose myself in her eyes

Used to believe I could last forever,  
Well now I know I can go for a while  
I'm gonna buy a car, gonna be a star, get me a lifetime guarant  
ee  
Someday I'm gonna get off and lose myself in those baby blues,  
baby blues  
Just wanna drown in those baby blues
