

Which Side

Daniel Lavoie

Right from the first, I'll want to be choosing
Do I want to make it to the top
Do I want to choose want to pick the team that is winning
Now I don't want my whole life scheme to flop flip flop
But can I trust all those mean alligators
I must admit they know how to survive
But could I maybe wonder if they are not people eaters
They keep coming out, keep coming out of the wild

Which side is your shadow
Which side is your shadow when the sun is hazy

I've got to believe a blue sky can be sunny
But can I believe the prophets at my door
I always thought the jungle could be zany
I just coming back, coming back for more

Which side is your shadow
Which side is your shadow when the sun is hazy
