

# Shady

Daniel Schuhmacher

You ate the fruit  
But it was tainted, tainted  
You lived your life  
But now it's faded, faded

Can't recognize you anymore  
But still see you through  
The thorne bush  
You hide from outside  
With your pain in mind

It killed you  
Now you are bursting

Processing, dying  
In such a wasted way  
Stand up again  
Stand up again  
Can't understand you  
Wasting your life  
Shady  
Shady  
Shady  
It's that shady side

You spit on yourself  
Now there is silence, silence  
Drugs once pushed you high  
But the fall was so damn hard

The spot went out  
In just a second  
And nobody could turn it on again  
You don't wanna talk  
But I could paint you colorful again

It killed you  
Now you are bursting

Processing, dying  
In such a wasted way  
Stand up again  
Stand up again  
Can't understand you  
Wasting your life  
Shady  
Shady  
Shady  
It's that shady side

It killed yourself  
Now you are bursting  
You blamed yourself

Processing, dying  
In such a wasted way  
Stand up again

Stand up again  
Can't understand you  
Wasting your life  
Shady  
Shady  
Shady  
It's that shady side  
Oh, oh  
It's that shady side  
It's that shady side
