

Vertigo

Daniel Schuhmacher

It is so sick
I'm lost in vertigo
Is there a reason reason reason

It's cold, there's no solid ground solid ground
No

I can avoid a reprobation
I can avoid it just stand still

I can avoid a crackup
I can avoid it i try to confine

All my demons somewhere in my head
where they can have their party
Theri party of masochists

The can see my constantly
Can you kill them by degree
Can you bomb that huge mountain
And the screaming fades away
That could really bring me silence
That would really be a gest
Please eliminate that poison
And the screaming fades away
Madness comes with fame

It's killing me
I'm lost in vertigo
Longing for my salvation

It's cold, there's no solid ground solid ground
No

I can avoid to hate you
I can avoid it cause i can

I can avoid to love you
I can avoid it cause i'm overloaded

All the demons are paralyzing me
so they have to be destroyed
Otherwise they destroy me

They can see my constantly
Can you kill them by degree
Can you bomb that huge mountain
And the screaming fades away
That could really bring me silence
That would really be a gest
Please eliminate that poison
And the screaming fades away
Madness comes wiht fame

Madness comes with fame
