

# Happy

Danny Elfman

I got a pretty girl who loves me a lot  
I got a fast car that looks real hot  
Got a fine pad, a stereo  
Well ain't done too well in the school where I go  
But I'm happy

Happy  
Happy that the world is upside down

Happy that we all made it through another day  
When I pick up the phone I still remember what to say  
Happy that my brain still lives inside my head  
Most of all I think I'm happy  
Happy that I ain't dead

Uh huh, I'm happy

I read the paper, I saw the news  
All those people that were singing the blues  
They get excited, why don't they just relax  
All they gotta do is kick back, go back  
Go back and be happy

Happy  
Happy that the world is ready to blow

I'm happy that I made it through another day  
When I pick up the phone I still remember what to say  
Happy that my brain still lives inside my head

Most of all I think I'm happy  
Happy that I ain't dead

I know a guy with plenty of loot  
You'll never catch him in a two-time suit  
He's got gold chains, plenty of rings  
I tell you buddy  
Don't mean a thing, don't mean a thing  
If you ain't happy

Happy  
Happy that the whole world is upside down

Be happy that you made it through another day  
When you pick up the phone you still remember what to say  
Be happy that your brain still lives inside your head  
Most of all I think I'm happy  
Yeah, I'm happy  
I'm happy that the whole thing is ready to blow

Be happy that the sun has risen up again  
That somewhere in this world I still got a friend  
Be happy that the big boy hasn't troubled yet  
Be happy that you still got something, something  
Something to project

I'm happy, I'm happy

'So happy'
