

Death Don't Want You

Dark Lotus

It ain't no place to be, trust me
And why is that you ask
Ain't no lights at the end
There's only darkness on my path
Tortured souls fill the realm I call home
Without the Reaper's guidance
To lead them out the dead zone
It's plain and clear
Don't spend eternity here
With others like them
Who took their own life out of fear
Why couldn't they just see that everybody's got a time?
Let the Reaper do his job, man
He's doing just fine.

Death don't want me, life is all that I got
Keep me living even if I'm just a head in a box.
Take me outdoors, feed me
Put tits in my face
There's enough reason for me to live in any case
Send me to prison, I'll start pimpin' faggots in there
Cripple my ass, I'm floating spinners on my power chair
I'm Violent J, I could never die anyway
Even when I'm gone all you gotta do is hit play.
I'm Juggalotus.

Death don't want you but the Lotus do
So bring the wicked shit, we gonna bring it too
We like 'Hey'
Lotus Song
We comin' your way
Lotus Song
Death don't want you when the rain is gone
But with your Lotus high, you know we all belong
We like 'Hey'
Lotus Song
We comin' your way
Lotus Song

I wouldn't change a thing, I'm cool with that
Death doesn't want me, so I'm here to relax
There's so many more in this world that feels the same way
Known as the Juggalos, representing family
Not afraid to die, cause death is afraid of us
We're meaner then the devil
But we're someone you can trust
We're used to being shut down
And pushed out the doorway
Death doesn't want us so we're fucking here to stay

You're way too fresh for death to want you
With abilities and talents no one can ever come close to
Suppose you don't lose, stay on track, you don't know if you don't try, always remember that
And remember this in my eyes we're all the same
You breathe I breathe we both share the name
Of a Juggalo, respect that and cherish your pride

Cause we family representin' all walks of life

Death don't want you but the Lotus do
So bring the wicked shit, we gonna bring it too
We like 'Hey'
Lotus Song
We comin' your way
Lotus Song
Death don't want you when the rain is gone
But with your Lotus high, you know we all belong
We like 'Hey'
Lotus Song
We comin' your way
Lotus Song

Hold up now, and think about this shit
Why the fuck death want to pay you a visit
I been waitin' thirty years and nothin'
So what makes you so special, mutha' fucka'
I been knockin' on his forehead, and peep this
All that bitch did was bring me a gang of kids
Maybe more people for later times
But for now I know he don't want to fuck with me or mines

If I contemplated dyin' then really I would be lyin' and tryin' to get to He
aven is really another question I'm guessin' another lesson in livin' ain't
really needed, but since I've been getting weeded(?), defeated, has been del
eted
I seen it but don't believe it, my eyes just run and hide and at the same ti
me they collide with the other side
Believe in pride and courage until the day that I die, now put your Lotus in
the motherfuckin' sky
(LOTUS!)

Death don't want you but the Lotus do
So bring the wicked shit, we gonna bring it too
We like 'Hey'
Lotus Song
We comin' your way
Lotus Song
Death don't want you when the rain is gone
But with your Lotus high, you know we all belong
We like 'Hey'
Lotus Song
We comin' your way
Lotus Song

We got people to see
We got places to go
Death don't want no Juggalo
(x17)
