

Fire!

I've heard some dying children calling me
Never seen them, never felt them as I'm doing now
It's time to run and it's time to take them
Another brick, another hope and now together... here we come

(It's time to run and take 'em.,
time to run and take 'em...)
Resurrection proceeds as a red blocks march
That's the time for them to live their October

To Berlin!
Triumph is near, humanity is waking up

A wall as shelter, to solve the eternal maze
Enlight this dark decline, let the children raise
Youth in my hands to lock the perfect gate
The world is out, out to survive, let the children raise

(It's time to run and take 'em..
time to run and take 'em...)
Resurrection proceeds as a red blocks march
That's the time for them to live their October

To Berlin!
Triumph is near, humanity is waking up

[Так пусть же Красная сжимает властно
Свой штык мозолистой рукой
И все должны мы, неудержимо,
Идти в последний смертный бой]

Follow your child
Follow your child, follow your child,

Reading these pages I know where's my horizon
Lenin is burning in me, I know my reason
In a land of poppies, under the Red flag
Believe in my promise and march with my children...

Let the children come... come to Berlin
Let here the children come... with Red flags

[Красная Армия, марш-марш вперед!
Реввоенсовет нас в бой зовет
Ведь от тайги, до Британских Морей
Красная Армия всех сильнее!]

Another red flag!

[Так пусть же Красная сжимает властно
Свой штык мозолистой рукой
И все должны мы, неудержимо,
Идти в последний смертный бой]
