The Darkness

It would appear that male pattern baldness has set in his hair, at an alarming pace running away from his face he's losing his virility and now his masculinity has been compromised and his libido down-sized

Not for me, not for me, not for me, uh-uh not for me, not for me, heaven forbid it's not for me you understand

Bald, slap headed and hairless bald he is destined to be bald, well tonight thank God it's him instead of me.

From what I have been reading his scalp needs kneading to stimulate each follicle and reverse this diabolical condition that's afflicted he for years and has cruelly repulsed each potential mate and left him with a balding pate

Not for me, not for me, not for me, uh-uh not for me, not for me, heaven forbid it's not for me you understand

Bald, slap headed and hairless bald he is destined to be bald, well tonight thank God it's him instead of me.

Sock it to me baby, yeah!

Not for me, not for me, not for me, uh-uh not for me, not for me, heaven forbid it's not for me you understand

Not for me, not for me, not for me, uh-uh not for me, not for me, heaven forbid it's not for me you understand

Bald, slap headed and hairless bald he is destined to be bald, well tonight thank God it's him instead of me. Thank God!

Bald, slap headed and hairless bald he is destined to be bald, well tonight thank God it's him instead of me. How?
