

Night Closing In

Darlene Love

Here comes the night
Closing In
Here comes the night
Closing In

The morning light
Greets me when I wake
And for just one moment
I forget my heartache
And the long, lonely hours
Start wearing me thin

Baby, I can feel the night
Baby, I can feel the night
Baby, I can feel the night
Closing in

Get outta bed
Put on my stockings and my skirt
Day by day and step by step
I make it through work
Then as the sun sinks down
That's when the blues begin

Baby, I can feel the night
And baby, I can feel the night
Baby, I can feel the night
Closing in

(Sax Solo)

Get into bed
Naked under the sheets
I try not to think about you
But I can feel the heat
And in the midnight hour
That's when the blues begin

And baby, I can feel the night
Baby, I can feel the night
Baby, I can feel the night
Closing in (Baby I can feel the night)
Baby, I can feel the night
(Baby, I can feel the night)
Baby, I can feel the night
Baby, ooh, ooh, ooh, baby, oh yeah

(Here comes the night)
(Closing in)
(Here comes the night)
(Closing in)
(Here comes the night)
Here comes the night
(Closing in)
Oh, can feel it
(Here comes the night)
Here comes the night

(Closing in)
Closing in
(Here comes the night)
Here comes the night
(Closing in)
Clo-o-o-sing in
(Here comes the night)
I'm gonna love
(Closing in)
I don't wanna go home
(Here comes the night)
Here comes the night
(Closing in)
Ooh, closing in
