

## I don't mind

Darren Criss

Baby I don't care  
The what, when, how, or where  
Folks may try to laugh and make a fuss  
They'll try to make shit hard for us  
But darling, I don't care

Darling, I don't mind  
What they think they'll find  
Of all the secrets they have told,  
At least I've still got you to hold  
So, darling I don't mind

I don't give a damn  
If they can't understand  
Of all the things that we have learned  
They're nothing as far as I'm concerned  
So I don't give a damn

Cause I'll be the one to hold you  
When the nights are cold  
And although I know I told you  
I will tell you forevermore that

Babe, it ain't no thing  
That viper venom sting  
Cause even if it got your goat  
I'd kiss you with the antidote

So babe, it ain't no thing  
Darling, I don't care  
Baby I don't, baby I don't mind
