

# Picture Perfect

Darren Criss

I got this camera on my phone  
Five megapixels  
You're off of work, you just got home  
Then you strike the right pose

I don't need to crop you in Photoshop  
All of the lighting is right and the colors are not too bright  
You're not even trying when you're just lying there  
And you're looking so beautiful

'Cause you're a picture perfect girl  
Picture perfect kind of girl  
I got to take ya  
'Cause you know you make a  
Picture perfect girl  
Picture perfect kind of girl  
Will you let me take your picture, perfect girl?

Those movie stars in Hollywood  
They dress to impress me  
But I'm not so sure they look as good  
Or even half as sexy

When you say my name  
When it's the night-time of day at the late show or matinee  
Nothing is more hot than you in my shot  
And when you tell me you want to be the star of my home movie

A picture perfect girl  
Picture perfect kind of girl  
I got to take ya  
'Cause you know you make a  
Picture perfect girl  
Picture perfect kind of girl  
Will you let me take your picture, perfect girl?

I got take your picture, perfect girl  
I don't want to make ya  
But you make a picture perfect girl

'Cause you're a picture perfect girl  
Picture perfect kind of girl  
I got to take ya  
You know you make a  
Picture perfect girl  
Picture perfect kind of girl

Will you let me take a, take a, take a picture, perfect girl?  
A picture perfect girl
