

# The Suicide Song

Darwin Deez

From the window ledge I fall  
Watch my necktie whip back in the wind  
From the top of an office building  
I can't even see why I should live

"But don't give up", they all say  
But I'm not giving up anything anyway

On the way down I see your face  
It's laughing at one of my idiot boy mistakes

Oh you can laugh now cause it's over  
Have one last laugh watching me go to waste

Cause I don't need a reason why  
Does anyone?
