

# Naked Flame

Dave Dobbyn

My heart from a gun  
Now it's caked to the walls  
It's performance art  
And it's framed by a house  
Yeah- we danced in the blood  
And I drank you all up  
And I'm always dizzy  
Cos the earth stood still  
Time to watch the bloom  
Only one of its kind  
Grows to fill the room- and the goes on forever  
Sudden staring at a naked flame  
Staring at her naked  
I'm new to dancing I catch my breath  
I catch my breath in the middle of a dance with you  
All this fire in the room started with a candle  
The candle blew over- catches fire to me and you  
Naked- Naked  
Naked- Naked  
Now the gift gives back  
Like a thousand fold  
You were right after all  
Guess it comes around  
You know she got your eyes  
Like I've never seen blue  
I watch you dance around the room  
Never laughed so hard  
Sudden staring at a naked flame  
Staring at a naked  
Sudden staring at her naked  
I'm new to dancing I catch my breath  
I catch my breath in the middle of a dance with you  
All this fire in the room started with a candle  
The candle blew over - catches fire to me and you
