

Stay

Dave Dobbyn

Love - listen up if you value anything
I could lay the blame heavily on your shoulders
But No - why waste time - I need time to figure you
My life - your career. But if you should need a shoulder
I'll be waiting in the wings like yesterday
Although that time fades the familiar, memory prays
And I get the sneaky feeling you want me to say
You can Stay here with me
You can Stay forever, yeah
You can Stay all the time
Love - get outta here if you value anything
All your noise - your parties
And I don't need your buddies
I'll be waiting...
Although the time fades the familiar
Memory prays on goes on
And I get the sneaky feeling...
You can Stay here with me
You can Stay forever any day
You can Stay all the time
