

## Chicago Winds

Dave Hollister

I'd like to tell you how I truly feel  
And hopefully it helps us all to heal  
I know I've been considered absentee  
But there's nothing I love more than being daddy  
Do you believe me?  
Hope you believe me

There were birthdays that I missed for sure  
The schedules being on tour  
Life spent in a bag, it's evident  
From Philli to Califor-ni-a  
Traveling from place to place  
All around the world and back again, ohhhh  
I'm blowing round just like Chicago winds

I long to see your faces everyday  
To watch the school recitals and your plays  
Videos and pics well they're okay  
But it's not the same, ohhhh it's not the same  
It's hard to take  
Am I too late?

There were heartbreaks that I could not cure  
Wish that I could have been there more  
Time costs so much less than money spent  
I wish I wasn't so pressed for time  
Cause I don't like to say goodbye  
From this window seat I'm buckled in  
I'm moving fast just like Chicago winds

I hope one day you'll understand and see, see  
Singing on stages, this isn't just for me  
I want for you to have a better life, better life  
And it's my job to make that sacrifice, that sacrifice

So I take a bows and say goodnight  
I pray my fans make it home alright  
Cause after all, I do this for them too  
I just wanna really let you know  
You're on my mind and I love you so  
I can hardly wait to see you all again  
Comin' back on home Chicago winds
