

Long Lost Friend

Dave Mason

I listen to what you say
'Cause Lord knows I want to believe you
But something inside my heart
Says the words that you tell me are false tunes

Here it comes again
Then it's gone like a long lost friend
It's with us until the end
The fears that you had will become you

You must take upon yourself
To do what you must do
And yet you keep asking yourself
Why the answers you seek still avoid you

Here it comes again
Then it's gone like a long lost friend
It's with us until the end
The fears that you had will become you

Sunshine follows the raindrops
Rainbows follow the dew
I keep following this heart of mine
My heart keeps following you

Here it comes again
Then it's gone like a long lost friend
It's with us until the end
The fears that you had will become you
Ooh yeah, yeah, yeah
