

Then I Found You

David Allan Coe

It's not hard to tell an orchid from a rose
Roses have thorns everybody knows
And the orchid is the sweetest flower that grows
No it's not hard to tell an orchid from a rose

Some men search for roses heaven knows
There's one thing that's prettier than any rose
They'll walk past an orchid every time
And roses are the only thing they'll find

Then I found you
You were the one in a million I've been looking for
Then I found you
You were the orchid I'd been trying so hard to find
Then I found you and I left that old bed of roses behind

It's not hard to tell an orchid from a rose
Roses have thorns everybody knows
And the orchid is the sweetest flower that grows
No it's not hard to tell an orchid from a rose
Then I found you
You were the one in a million I've been looking for
Then I found you
You were the orchid I'd been trying so hard to find
Then I found you and I left that old bed of roses behind
