

What's Going On In Your World

David Ball

What's going on in your world?
I hope you're doing fine
I just called to say, "There's not a day
You don't cross my mind"

I just wanted to see if you felt like me
Sorry, we said, "Goodbye"
Oh, what's going on in your world?
It sure is lonesome in mine

Just tell me that you're happy
And I'll hang up the phone
Just tell me you don't need me anymore
And I'll leave you alone

I just wondered if you had somebody new
After all of this time
So what's going on in your world?
It sure is lonesome in mine

Just tell me that you're happy
And I'll hang up the phone
Just tell me you don't need me anymore
And I'll leave you alone

I just wondered if you had somebody new
After all of this time
So what's going on in your world?
It sure is lonesome in mine

What's going on in your world?
It sure is lonesome in mine
What's going on in your world?
It sure is lonesome in mine
