

# Swag (Remix)

David Banner

Everybody in my city pushing keys and that's all these kids see  
That's the only thing they hear then that's the only thing they'll be,  
We call it swag, swag, swag  
We call it swag, swag, swag  
The homies is busting slugs, the women is shaking ass  
The white girls call us "nigga" and we just sit back and laugh  
And call it swag, swag, swag  
We call it swag, swag, swag

Banner, let me get them, let me speak up  
Let me tell them bout swag, let me tell them bout fraud  
Let me tell them bout fraud and growing up black in a land so cold  
You can freeze your soul if you don't have your wits about you  
I allowed you, if you talk that swag should...  
I been chilling on tour around the world  
And most of the egos really don't move me  
I came from the hood but I came up good  
My mama raised me right,  
I was more into Malcom than into talkcom  
Different kind of fight  
I see niggas sell out who they really are for fame and money  
Denounce a profit just for profit with no interest to stop it  
My calculations showing as the people we regressing  
Most of the rappers I know they're intelligent  
But they would never bless you with a lesson  
They would rather feed you to bitches, drugs and guns  
Like fucking clowns  
They ain't concerned with your block cause they in the burbs now  
What's worse, a white supremacy plotting to kill you with evil?  
Or black faces on the t.v. poisoning our people  
Mentally in the streets, our brains are in a body bag  
I hope you vote Obama twice, but some of you won't  
Just blame it on your swags, swags, swags

Everybody in my city pushing keys and that's all these kids see  
That's the only thing they hear then that's the only thing they'll be,  
We call it swag, swag, swag  
We call it swag, swag, swag  
The homies is busting slugs, the women is shaking ass  
The white girls call us "nigga" and we just sit back and laugh  
And call it swag, swag, swag  
We call it swag, swag, swag

Is anybody on the next level  
With me, I'm hearing niggas disregard  
Y'all think it's witty,  
I ain't laughing, we don't play in Mississippi  
Even when I was broke, selling my soul wasn't tempted  
Now the white cop shoot a black kid  
You will see if you twist that's it  
You march for a minute, that's it  
Get a new outfit, and it goes like this

Cook, swag, cook, swag  
A black kid did me, nobody made

They won't speak the truth, these niggas been scared

Call my flow the pudding, the proof's in there  
I say the shit they say I shouldn't I ain't never cared  
I've been everywhere the game spitted and left it there  
I brought a couple slugs to your hood, pray I don't leave them there  
I hope that you don't give me a reason, double dare  
I'm hard to scare, I'm what they fear, a black planet

Everybody in my city pushing keys and that's all these kids see  
That's the only thing they hear then that's the only thing they'll be,  
We call it swag, swag, swag  
We call it swag, swag, swag  
The homies is busting slugs, the women is shaking ass  
The white girls call us "nigga" and we just sit back and laugh  
And call it swag, swag, swag  
We call it swag, swag, swag
