

I Can Get Used to This

David Choi

I kept all of my feelings locked inside of me
Finally found someone to trust with everything
Oh I try so hard, always to be a man, but right now I just cant
understand
How I cant control, I think loves got a hold on me

Such a foreign feeling but you know
I can get used to this
I can get used to this
I can get used to this now
Comfortable and feels so real
I can get used to this
Stuck in this happiness
I Can Get Used to This now

I think this is the first time Ive ever felt like this
And found someone that I would never want to miss
I feel like a child
I get butterflies
Sorry this is the only way to describe
Think Ill let it go, let this love get a hold on me

Such a foreign feeling but you know
I can get used to this
I can get used to this
I can get used to this now
Comfortable and feels so real
I can get used to this
Stuck in this happiness
I Can Get Used to This now

Loves feels so good
Better than I thought it would

Such a foreign feeling but you know
I can get used to this
I can get used to this
I can get used to this now
Comfortable and feels so real
I can get used to this
Stuck in this happiness
I Can Get Used to This now
