

All That I Wanted

David Fonseca

How wonderful to see you here, my love
The whole world happens when you're near, my love
The waterfalls, the northern lights above
They're so insane and so hard to explain

You were all that i wanted, all that I needed
So don't make me say it, It would just break it, believe me
You were all that I wanted, all I ever needed
Can't bring myself to say it
I guess I'll just keep this a secret
So I can keep it, keep it

The earth turns its endless spin, my love
Tornados grow but fail to win, my love
And there's a place that I keep dreaming of
Away from here, Illogical and fearless
