

# So Far Away

David Gilmour

**C F/C C F C (2x)**

**C**

What am I suspended here?  
Should I kid myself that I have no fear?

**Es**

I get no choice, I just have to wait

**Ami**

It may already be too late

**G Gsus4**

I don't know what's going on

**G Gsus4 F F-5 F F-5**

She is here, but I am gone

**Emi D**

I am gone

**C**

My love is lying here  
She's far away though she looks so near

**Es**

"Time will tell" she says to me

**Ami**

When a warm coat is all I need

**G Gsus4**

Her peace of mind, her strength of will

**G Gsus4**

It will come she's sure it will

**F F-5**

And how can I put my mind at rest?

**F Emi D**

I feel I'm coming up second best

**C/B F/C**

And I'm caught with my own life

**B/D C/E**

Is this a dream, or is it real life?

**B/F F**

Oooh sleep, come on me soon

**As/Eb Es**

I can't bear this lonely room

Look at that hand lying there  
The room is dark she shows no fear  
I'm lying still, my eyes are wide  
My heart is pumping, I'm still alive  
I'm still awake against my will  
What will it ever take  
To still this burning in me?

And I'm caught with my own life  
Is this a dream, or is it real life?  
Oooh, sleep, come on me soon  
I can't bear this lonely room  
Sleep, come on me soon  
I can't bear this lonely room  
Sleep, don't take too long  
Can't keep singing this lonely song
