

# Goodbye Friend

David Guetta

The colours will change  
I love every shade of you  
Don't lose your faith  
Keep walking how you do  
Don't you say it wasn't worth  
All the pain and all the hurt  
you're going through  
And I'll always be with you

Goodbye friend  
No, this is not the end  
Lift up your head  
Somewhere with me again  
Or until the moments be shared  
Those are the treasures that won't disappear  
Goodbye friend-riend-riend-riend.

The world's just a place  
That we're only passing through  
Heaven awaits  
Those that keep marching through  
Don't you say that loving lost  
Wasn't worth the pain it cost  
you're going through  
Cause I'd take it all for you

Goodbye friend  
No, this is not the end  
Lift up your head  
Somewhere with me again  
Or until the moments be shared  
Those are the treasures that won't disappear  
Goodbye friend-riend-riend-riend.
