

Life Is Mostly Beautiful With You

David Hasselhoff

You can't sing worth the damn but you still think you can
Yet life is mostly beautiful with you
I don't lie, I won't die
Try to teach you to drive,
Life is mostly beautiful with you
Though we never agree on a movie to see
You blame me and I'm gonna find the two
As when the movie show ends then our evening begins
Life stays mostly beautiful with you

Life is mostly beautiful with you
You and all the many beautiful things you do
There's no cloud so dark, you don't come shining through
Life is mostly beautiful with you

Because you choose to ignore every night how I snore
Life is mostly beautiful with you
When I have to work late, you don't fret you just wait
Life stays mostly beautiful with you
Well it seems you and me have this philosophy
Of a lovin and a livin, we'll make it through
No I wouldn't change a thing, though I do wish you could sing
Life is mostly beautiful with you

Life is mostly beautiful with you
You and all those many beautiful things you do
There's no cloud so dark, you don't come shining through
Life stays mostly beautiful with you

Mostly beautiful with you
You and all the many beautiful things you do
There's no cloud so dark, you don't come shining through
Life is mostly beautiful with you

Mostly beautiful with you
You and all the many beautiful things you do
There's no cloud so dark, you don't come shining through
Life is mostly beautiful with you

Mostly beautiful with you
You and all the many beautiful things you do
There's no cloud so dark, you don't come shining through
Life is mostly beautiful with you
