

Before it's too late

Davová psychóza

What do you feel, when trees crack down,
giving way to motorway.
What do you feel
like looking at a tree falling down.

Be modest and become rich, but without money.
Be sympathetic and the others won't suffer as they do now.
Why do you believe in God and go on killing,
don't believe in power, if you wanna survive.

What do you feel, when you see all those war horrors seven times a week.
What do you feel like watching people suffering.

Are you still O.K. listening to warning about destruction of our planet.
Are you still O.K., watching ecological disaster?
