

# This Is The Warning

Dead Letter Circus

It's falling to pieces

I stand and wait  
There's no one to blame this time  
Stand and brace  
You're sure I can change your mind  
Feel brave  
There's no one to claim the lie  
Stand and face  
This is the warning

As the world sleeps Without knowing  
Choose your ground, lead or start running

Take your time, breathe  
Truth is coming  
Take control, real change

This is the warning

As the world sleeps without knowing  
Choose your ground, lead or start running

Take your time, breathe  
Truth is coming  
Take control, real change

They've got it all worked out  
Wish I could leave here now  
Is there another way  
Some other path to take

We will figure it out  
Same people brought you down  
They are controlling you  
These people lead us

I saw them change the truth  
They didn't want us to  
There right before our eyes  
I knew we'd made it

Don't take the easy ride  
We're running out of time  
This is the warning
