Can't Do That

Dead Moon

Your situation's on the top of my head I don't know what to do I know it's painful but it's got to be said These things you're going through Oh, you can't do that

You always had a way of keeping things in It's just the way you are It's only lately I don't know where you've been I'm afraid you'll go to far Oh, you can't do that

I miss the way we were before we got lost It will never come again I'm only trying to get the wires uncrossed Before it all ends
