

## One-Way Ticket

Dead Moon

Lovesick, I can't kick it  
I came in on a one-way ticket  
I can't zip it, my brain's dead  
Going 90 with a bridge out ahead  
Watch out girl, you're gonna love me to death

I can't eat, I can't sleep  
I been under the weather all week  
A vaccination won't make it stop  
There ain't no remedy for what I've caught

She's got a doll, she sticks the pins  
I look like something that the cat dragged in  
I got the symptoms, don't know the name  
Been to hell and back and nothing's changed
