Beyond Reason

Deals Death

As we scan for reasons we find a reverence
A belief in eternity of what will fade

A path towards pollution of our minds
To only see what you want
To own all you can dream of
Blind design
Stained your mind

Sanity laid to waste
Credulity beyond reason
We thought that nothing would change
Beyond reason

Creating invisible money
That paves way for despair
Our filth was flooding the system
To a level it could not bare

A path towards pollution of our minds
To only see what you want
To own all you can dream of
Blind design
Stained your mind

Sanity laid to waste
Credulity beyond reason
We thought that nothing would change
Beyond reason

We brought this on ourselves
It was bound to happen

As we scan for reasons we find a reverence
A belief in eternity of what will fade

A path towards pollution of our minds
To only see what you want
To own all you can dream of
Blind design
Stained your mind

Sanity laid to waste
Credulity beyond reason
We thought that nothing would change
Beyond reason

Sanity laid to waste
Credulity beyond reason
We thought that nothing would change
(Would change)
Beyond reason

Beyond reason
