

## Point Zero Solution

### Deals Death

It started from greed  
Passed on through fear and ridiculous needs  
Can we possibly leave?  
We lie in our filth, we diminish our breed  
Diminish our breed  
Forced to away what we cannot redeem

Everything has a price  
To wallow in luxury is the disguise  
A decaying design  
Under the ground lies the heaven malign

A great life we've had  
A fake life we shared  
Society's demons will soon be declared

Point Zero Solution awaits us all  
Dismissed as illusion to keep us conformed  
We spent until the end  
Point Zero Solution  
Inevitable

Our way of life has strangled us  
Clueless we sculpted the end  
Empty, drain and cover with lies  
There's no such thing as a bottomless pit  
With endless supplies

A great life we've had  
A fake life we shared  
Society's demons will soon be declared

Point Zero Solution awaits us all  
Dismissed as illusion to keep us conformed  
We spent until the end  
Point Zero Solution  
Inevitable
