

Memory Lane

Dean Brody

Girl it's been too long, since we've had a night off
So I strung some Leonard's in the trees
Big screen in the backyard, where I park the old car
Come on get in here next to me
I wanna make you see, that you still drive me wild
Lift you off your feet, with that dimple in your smile

Tonight I'm gonna park us down memory lane
Take it back to a time where we had time to waste
Grab some popcorn and some soda and our favourite mixtape
Let's get lost in the backyard on memory lane

Hey when's the last time, we stayed up all night
Through foggy windows, we made a scene
Throw a sheet on the clothesline, we'll camp here all night
And carve our names in the maple tree
Make you twirl your hair, with those hold me eyes
I wanna take you there, baby hold on tight

Tonight I'm gonna park us down memory lane
Take it back to a time where we had time to waste
Got some popcorn and some soda and our favourite mixtape
Let's get lost in the backyard on memory lane

Let's take turns tomorrow, baby let's fool around
Goin' down to the matinee, halfway through we'll duck out
And we'll dance 'neath the clocktower and I'll buy you lemonade
Make you feel like you used to feel in those early days

Tonight I'm gonna park us down memory lane
Take it back to a time where we had time to waste
Got some popcorn and some soda and our favourite mixtape
Let's get lost in the backyard on memory lane
Let's get lost for a moment on memory lane
