Giant snowflakes floatin' in the air
Red and green lights everywhere
The woodshed is full so everybody will be warm tonight
Grandma sits knittin' by the fire
Mom's in the kitchen brewin' apple cider
Papa and Daddy tradin' stories of huntin' seasons gone by
And the woodshed is full so everybody will be warm tonight

Christmas Eve has found me
With those I love the most in this life
As smoke rose from the chimney
We all sang oh holy night

Oh holy night, oh holy night, oh holy night

Shoveling snow playin' hockey
Hot chocolate snow forts and Christmas cake
My first glove from daddy
Are memories that won't ever fade
My brother and I splittin' firewood
And breakin' into crazy snowball fights
And somehow that woodshed got full
So everybody could be warm at night

Christmas Eve has found me
With those I love the most in this life
As smoke rose from the chimney
We all sang oh holy night
Oh holy night, oh holy night, oh holy night
