

## Change Of Heart

Dean Martin

If the sky can change from cloudy to butterfly weather  
And the ocean's roar becomes a lullaby  
Why can't you why can't you love me  
Have a change of heart and be my apple pie

Oh a leopard can't change his spots  
And oil and water can't mix  
But I have recently heard an old dog learned new tricks

If the icy winds that blast us in December  
Can in April bring blossoms to the vine  
Why can't you why can't you love me  
Have a change of heart and be my valentine

Why can't you why can't you love me  
Have a change of heart and be my apple pie  
Oh a leopard can't change his spots  
And oil and water can't mix  
But I have recently heard an old dog learned new tricks

If the icy winds that blast us in December  
Can in April bring blossoms to the vine  
Why can't you why can't you love me  
Have a change of heart and say that you'll be mine  
Have a change of heart and say that you'll be mine  
Have a change of heart and say that you'll be mine
