

# Love Is All That Matters

Dean Martin

(Love is all, love is all, love is all, love is all, love is all)

Love is all that matters

And we've got love

We have walked all with a prize (love is all, love is all)

The stars that I used to see

Are not where they used to be

They only will shine for me in your eyes

(Love is all that matters to me)

You are all that matters

And I've got you

We're on top and we won't fall (we won't fall 'cause love is all)

No fortune that we can boast

We're happy with tea and toast

For we've got love and love matters most of all

(You are all that matters and I've got you)

(We're on top and we won't fall)

No fortune that we can boast

We're happy with tea and toast

For we've got love and love matters most of all

(Love is all that matters, love is all)
