

# My Heart Has Found A Home Now

Dean Martin

My heart has found a home now  
My lips know where to rest  
My heart has found a home now  
A home that suits it best

My eyes know who to see now  
One side my whole life through  
My eyes know what to see now  
For they see only you

They say home is where the heart is  
Where the heart is love endures  
And the very nicest part is  
My heart's at home with yours

I know I'll never roam now  
I'm glad to tow the line  
My heart has found a home now  
And what it so divine  
Your heart's at home with mine

My heart has found a home now  
And what it so divine  
Your heart's at home with mine
