The Sun Is Shinin' (On Everybody But Me)

Dean Martin

The sun is shinin' but it's rainin' all over my face Tricklin' teardrops and I feel out of place 'Cause everybody's happy-go-lucky, it's easy to see The sun is shinin' on everybody but me

It's been rainin' like this ever since you been gone And every day I'm bluer than the day before And if the rain don't stop I can't say What's gonna become of me because Every day I miss you a little bit more

The sun is shinin' but it's rainin' all over my face Tricklin' teardrops and I feel out of place 'Cause everybody's happy-go-lucky, it's easy to see The sun is shinin' on everybody but me

Somebody asked me were you worthy of a date I made some excuse and politely slipped away Because they know as much as I do When it comes to knowing you That this time I'm afraid you gotta say

The sun is shinin' but it's rainin' all over the place Tricklin' teardrops and I feel out of place 'Cause everybody's happy-go-lucky, it's easy to see The sun is shinin' on everybody but me

The sun is shinin' on everybody but me
