

## Turn to Me

Dean Martin

If ever you need warmth and affection love and protection turn  
to me  
If ever you want someone who's tender darling remember turn to  
me  
Whenever you find the life's got you down I'll be around  
Any time night or day I'm only your phone call away  
I waited for you a half of my lifetime but I'll wait a lifetime  
If that's how it must be till you turn to me  
(If ever you need warmth and affection love and protection) tur  
n to me  
(If ever you want someone who's tender darling remember) turn t  
o me  
Whenever you find the life's got you down...
