## Death in June

Above the stars  
And, above the moon  
We initiate  
We will be there soon  
Above the stars  
And, above the moon  
We initiate  
We will be there soon

Flieger, flieger  
Flieger, flieger

Screamers come and screamers go  
Little scythes cut the air  
As above so below  
Screamers come and screamers go  
Little scythes cut the air  
As above so below

Flieger, flieger  
Flieger, flieger

Cruising altitude  
Here we come  
Scoring from behind  
Out of the black sun  
Cruising out of tune  
Here we come  
Shooting from behind  
Into the black sun

Flieger, flieger  
Flieger, flieger

Hearts we never feel  
Like calming down  
We're high above  
Our hallowed ground  
Hearts we never feel  
Like calming down  
We're high above  
Our hallowed ground

Flieger, flieger
