

## Help Yourself

### Death in Vegas

You can't change without someone's shadow  
'Cuz then it's gone  
when you still shine  
You can't change to solve somebody's name  
Don't blink until you're made

When all destroyed, broke all in Hell,  
and you don't need what you could steal;  
I'm feeling like something I don't know that's wrong  
And I know the sad in my heart

Help yourself with  
Help yourself with what you need, yeah  
Help yourself with  
Help yourself with what you need, yeah  
Help yourself with  
Help yourself with what you need, yeah  
Help yourself when  
Help yourself when you don't need it  
Help yourself

Help yourself with  
Help yourself with what you need, yeah  
Help yourself with  
Help yourself with what you need, yeah  
[Help Yourself Lyrics on <http://www.lyricsmania.com>]  
Help yourself with  
Help yourself with what you need, yeah  
Help yourself when  
Help yourself when you don't need it
