

Tongues

Deathstars

No prayers can reach me here
No light can touch
Among reduced Bibles, cigarettes and drugs
I carve your name in my flesh
Listen, Listen
Then come and take my hand
Tongues, Tongues
Speak the little girls name
Tongues, Tongues
Shame, shame
Tongues, Tongues
Speak the little girls name
Tongues, Tongues
Shame, shame
Innocence will never kiss me again
Never lick my stitched scars
Your lipstick's between the legs of hell
Mixed with speed and blood
Listen, Listen,
Then come and take my hand
Tongues, Tongues
Speak the little girls name
Tongues, Tongues
Shame, shame
Tongues, Tongues
Speak the little girls name
Tongues, Tongues
Shame, shame
The eggs grow in her open wrists
It has started now
