

Down but Never Out

Dee Snider

We can
We can never stop
We've got to fight
This is our life
You're never lost when you can see the top

You think the world's against you?
You never had a chance
The bastards they won't let you through
Why bother make a stand?

Reach beyond
Always reaching!
You're not done
Never finished!
There's no reason to surrender
Fight to turn it around
You may be down
Down but never out
Down but never out!

We're not
We're not left behind (We're not left behind)
It's plain to see
We must believe
If we don't look we're never gonna find

Battle on
Always fighting!
Until it's done
You're not finished!
Find a place to plant your flag upon
Fight to turn it around
You may be down
Down but never out!
Fight to turn it around
You may be down
Down but never out
Down but never out!

Down down down
But never out!
Down down down
But never out!

Down down down
But never out!
Down down down
But never out!

Down down down
But never out!
Down down down
But never out

Fight to turn it around
You may be down

Down but never out!
Fight to turn it around
You may be down
Down but never out

We can
We can never stop
We've got to fight
This is our life
We're never lost when we can see the top

We're not
We're not left behind (We're not left behind)
It's plain to see
We must believe
If we don't look we're never gonna find

We can
We can never stop (We can never stop)
We've got to fight
This is our life
We're never lost when we can see the top

Down down down
But never out!
Down down down
But never out!
Down down down
But never out!
Down down down
But never out
