

I'm Ready

Dee Snider

Faced with mortality, questioning my sanity
Images that bring me my to knees
The weight of the world on top
Have I given all I've got
Just when I thought I'd seen it all

Death leaves a sorrow no one can heal
Love leaves a memory no one can steal

Maybe we're just here for the pain
Then I'm ready
Maybe we're just here for the pain
Then I'm ready, ready, ready, ready

Praise those who live their truth
Step forward where they break through
Forge a path with something real to prove

Death leaves a sorrow no one can heal

Love leaves a memory no one can steal

Maybe we're just here for the pain
Then I'm ready
Maybe we're just here for the pain
Then I'm ready, ready
Here for the pain

Maybe we're just here for the pain
Then I'm ready, ready (I'm ready)
Maybe we're just here for the pain
Then I'm ready, ready, ready, ready (I'm ready)
Maybe we're just here for the pain
Then I'm ready, ready (I'm ready)
Maybe we're just here for the pain
Then I'm ready, ready, ready
