

daylight maker,
can you help me out tonight,
meet my empty heart,
it's crying out for something new
daylight breaker,
what makes you think I need you now
meet my savier, is telling you time to say goodbye

chorus
making my way underground,
I reach for the end
but calling with no air supply
will I like my life when I do
as this tunnel caving me in

daylight maker,
can you help me out tonight
I'm stuck in the barrow,
there's no turning back I suffocate
daylight maker,
can you help me out tonight
my time will please, please get me out

making my way underground,
I reach for the end
but calling with no air supply
will I like my life when I do
or is this tunnel caving me in

caving me in!

making my way underground,
I reach for the end
but calling with no air supply
will I like my life when I do
or is this tunnel caving me in

making my way underground,
I reach for the end
but calling with no air supply
will I like my life when I do
or is this tunnel caving me in
